PROFESSIONAL SUMMARY

Data Analytics graduate (4.0 GPA, St. Clair College) with hands-on experience building end-to-end machine learning pipelines, deployed Streamlit applications, ELT data workflows, and business intelligence dashboards. Faculty Academic Award recipient and Academic Distinction Letter recipient every semester for maintaining a 4.0 GPA throughout the program. Competitive analytics background that took 3rd place overall (1st in Presentation) at the 2026 HEAD Higher Education Analytics Data Competition (Mohawk College). Skilled in Python, scikit-learn, TensorFlow, SQL, Power BI, and Tableau.

HIGHLIGHTS OF SKILLS

Programming / Scripting: Python (Pandas, NumPy, Matplotlib, scikit-learn, TensorFlow/Keras, Plotly), JavaScript
Data Analysis & Visualization: Power BI, Tableau, SQL, Excel (PivotTables, VLOOKUP), Seaborn, GIS/Spatial Analysis
Machine Learning: Regression, Classification, ANN, Gradient Boosting, Random Forest, KNN, GridSearchCV, sklearn Pipelines
App Development & Data Engineering: Streamlit, dbt, Snowflake, ELT Pipelines, Feature Engineering, REST APIs
AI Integration: Groq Llama 3.3, Financial Modeling Prep API, integrated into production Streamlit tools
Tools & Platforms: GitHub, Jira, Docker, Azure, Google Colab, Jupyter
Methods: EDA, Model Evaluation, Spatial Clustering, Storytelling, Dashboards

EDUCATION

Diploma — Data Analytics for Business

Jan 2025 – Apr 2026

St. Clair College, Windsor, ON, Canada

- Graduated with a 4.0/4.0 GPA
- Faculty Academic Award recipient, awarded to the top graduating student in the program
- Academic Distinction Letter awarded every semester for maintaining a perfect 4.0 GPA throughout the program
- Coursework: Machine Learning, Data Visualization, Business Intelligence, Database Management, ELT Pipelines, Financial Analytics

BSc, Microbiology

May 2017 – Dec 2021

Obafemi Awolowo University, Ile-Ife, Osun, Nigeria

AWARDS & COMPETITIONS

Faculty Academic Award — Top Graduate, Data Analytics Program

Apr 2026

St. Clair College, Windsor, ON, Canada

- Awarded to the highest-achieving graduate in the Data Analytics for Business program
- Maintained a 4.0/4.0 GPA across all semesters, earning an Academic Distinction Letter each semester

3rd Place Overall — HEAD Higher Education Analytics Data Competition

March 2026

Mohawk College, Hamilton, ON — Team of 4

- Ranked 1st in the Presentation category and 5th for the Poster, achieving 3rd place overall across competing colleges
- Analyzed Hamilton's urban tree inventory using spatial clustering, composite risk scoring, and agglomerative clustering to identify climate-vulnerable canopy zones and priority intervention areas
- Delivered policy recommendations for Hamilton's Urban Forest Strategy covering short, medium, and long-term climate adaptation (2030, 2050, 2080)
- Tools: Python, GIS/spatial analysis, clustering algorithms, data visualization, GeoPandas, Matplotlib

PROJECTS

MarketLens — Financial Analytics App

[↗ Live App](#)

- Built a fully deployed financial analysis tool where users enter any stock ticker or ETF and instantly receive profitability ratios, a 1-year interactive price chart, CAPM/Beta regression, WACC & DCF valuation, and a Buy/Hold/Sell recommendation
- Integrated Groq Llama 3.3 AI to generate plain-English stock summaries, and built a live landing page showing S&P 500, NASDAQ, Dow Jones, top movers, and market news

- Tools: Python, Streamlit, Financial Modeling Prep API, Groq AI, Plotly — fully public, no login required

Bridging the Gap — Income Prediction App (Capstone)

[↗ Live App](#)

- Deployed an interactive ML-powered app where users input country, education level, gender, immigrant status, and year to receive a predicted income amount and income group (Low/Medium/High)
- Features include income gap comparison (immigrant vs. non-immigrant), gap-over-time charts (2018–2022), feature importance visualizations, confusion matrix, policy timeline, and an AI assistant (Groq Llama 3.3)
- Built on trained scikit-learn and TensorFlow/Keras models; analysed 300,000+ records from Statistics Canada and US datasets spanning 10+ years
- Tools: Python, Streamlit, scikit-learn, TensorFlow/Keras, Pandas, Plotly, GroqAI, Joblib

Analytics Engineering ELT Pipeline (dbt + Snowflake)

- Implemented a production-style ELT pipeline using dbt and Snowflake; wrote and maintained SQL queries to extract, transform, and load raw warehouse data into tested, documented analytics models with schema tests, source freshness checks, and modular SQL layering (staging → marts)

Retail Sales Performance & Store Segmentation — Walmart Case Study

- Analyzed 6,400+ weekly sales records across multiple stores to detect seasonality, sales variability, and underperforming locations using feature engineering and RFM-style clustering
- Built Power BI dashboards and delivered business-ready visualizations and recommendations for targeted marketing and inventory strategy

EXPERIENCE

IT Technician — Downtown Campus

Aug 2025 – Apr 2026

St. Clair College, Windsor, ON, Canada

- Provided technical support for 100+ students, resolving hardware and software issues to minimize classroom downtime
- Managed campus equipment inventory and supported IT infrastructure operations
- Generated inventory and asset utilization reports to support data-driven resource allocation decisions

CBT / Examination Officer

Apr 2021 – Nov 2024

MOD (IDP) IELTS, Lagos, Nigeria

- Administered international IELTS exams, managed identity verification, data entry, and compliance reporting against international testing standards for audit readiness

Frontend Developer Intern

Sept 2022 – Dec 2023

Korwey Technologies Limited, Lagos, Nigeria

- Developed and maintained user-facing web pages using HTML, CSS, JavaScript, and React.js
- Reviewed and debugged existing codebase to identify and resolve errors, improving overall application functionality

VOLUNTEER & LEADERSHIP

Class Representative — Data Analytics for Business

May 2025 – Apr 2026

St. Clair College, Windsor, ON, Canada

- Elected to represent the Data Analytics for Business cohort, serving as the primary communication link between students and faculty
- Advocated for student concerns, facilitated class-wide communication, and supported a positive and inclusive learning environment
